

RETI
retire early

Limit your emotions and enjoy safe,
automatic saving in Bitcoin.

Problem

Investing in cryptocurrencies brings many investment barriers and challenges

1.

The collapses of cryptocurrency businesses cause the loss of their users' funds

2.

Inexperienced people make emotional decisions when investing, thus losing money

Solution

Reti - A Bitcoin saving app for everyone, which...

1.

- ✓ does not keep the funds of its users

2.

- ✓ enables rounding the amounts of transactions made using non-cash payments of its users and automatically invests them into Bitcoin
- ✓ provides a ready-made DCA investment strategy

How it works?

Savings the way you like

With Reti app, every time when you paying with your debit card, the small part of the amount is automatically transferring to buy Bitcoin. User can configure autosaving plan based on his preferences and capabilities.

There are two variants:

1. Fixed amount

2. Percentage of each transaction

How it works?

It's really simple

1

Download the app

2

Create your profile

3

Choose your plan

4

Add your card

5

Limit your emotions
and enjoy safe,
automatic saving in
Bitcoin

Market Validation

More and more people are using digital assets:

in 1998
200mln
Number of internet users

=

in 2022
200mln
Number of digital assets users

If the current trend continues, **over 1 billion users** will be using digital assets in **2027**.

Internet vs. Crypto Adoption

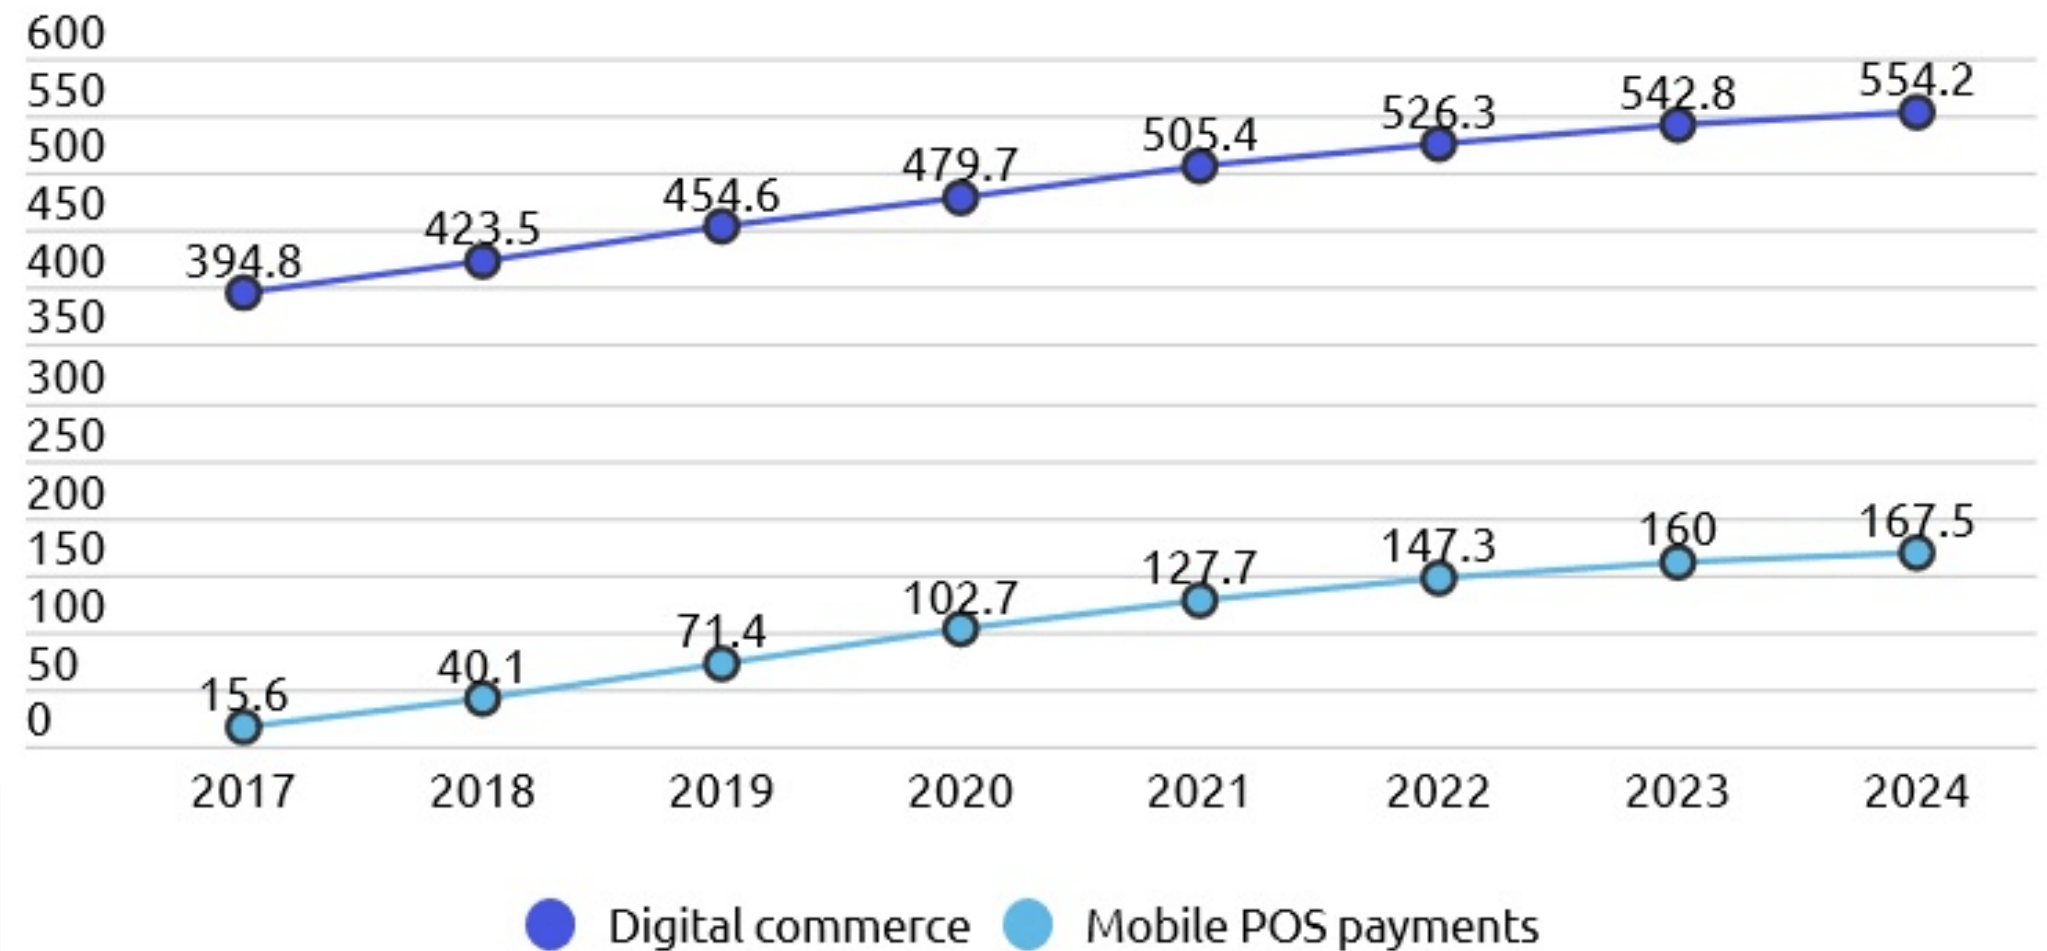

Source: World Bank, Crypto.com

Market Validation

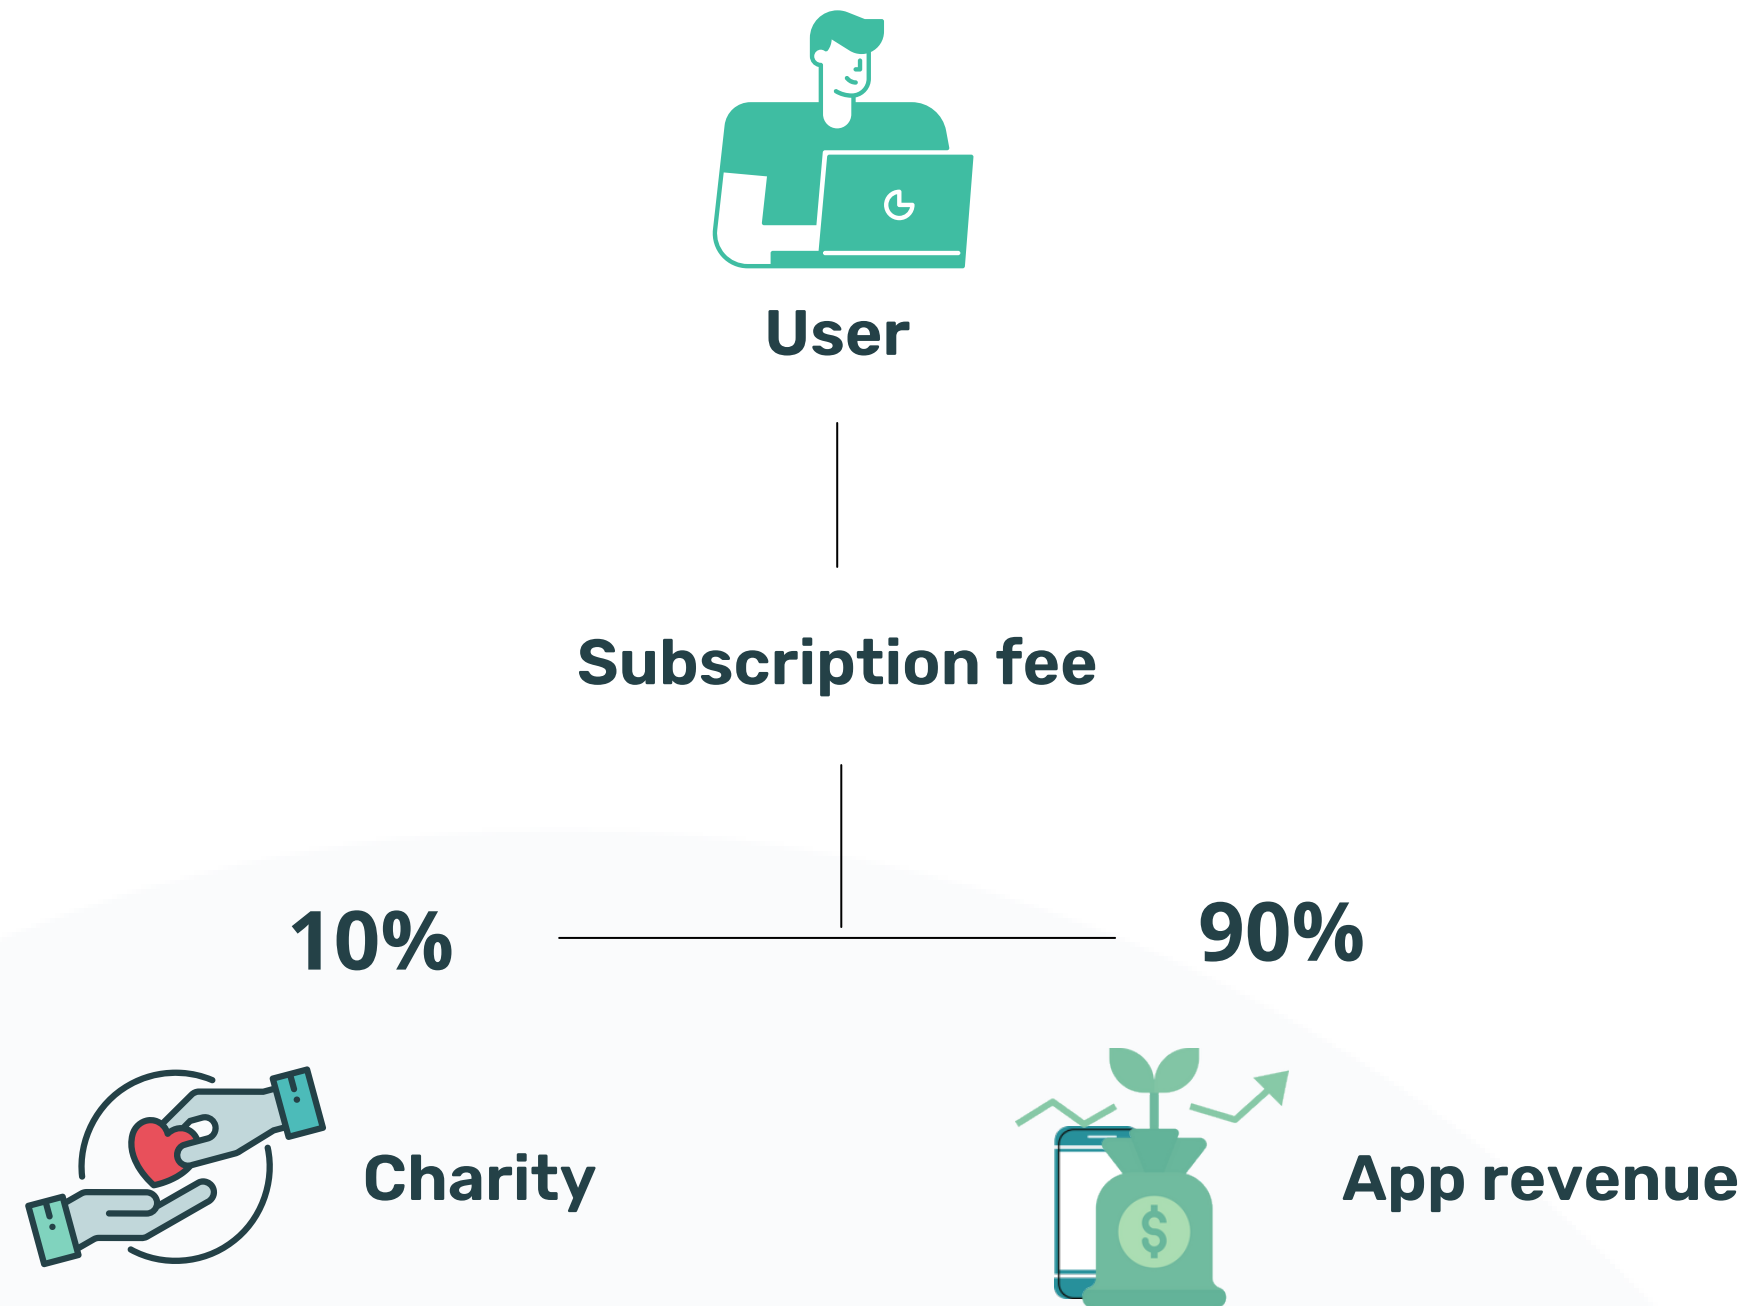

The number of people using non-cash payments in the European Union has increased by **131.7 million** in the last 5 years, which means an **increase of 844%**.

Source: Statista Global Consumer Survey, forecast adjusted to expected impact of COVID-19, June 2020

Reti charges a fee for each premium user

The fee is charged for:

- automated BTC saving process while making non-cash payments,
- integration with the user's bank account,
- possibility to vote in charity activities.

Traction and Roadmap

The beginning of something big...

01:
Increasing the number of crypto wallets run by founders for closest friends

03:
Creation of product website reti.tech and Visual identity

We are here...

05:
Creation of the application

07:
Further development of the application

02:
Noticing the need for automation

04:
Implementation of the acceleration plan with PPN-T and building the MVP version of the application

06:
Implementation and popularization of the solution

Vision and development

Dominik Kopaczek

Technology

To make the vision comes true

We are looking for a financing plan
in the amount of 200,000 EURO to create
an application and introduce it to the Polish
market in the first order.

We believe that ours, and yours
friends and families, deserve early
retirement and more free time.

Reach out if you want to become
part of **RETI**.
